About Me

I am an undergraduate 3rd Year student currently pursuing a degree in Software Engineering with a strong passion for UI/UX Engineering and front-end development. My academic journey has equipped me with a solid foundation in software principles and hands-on experience with various programming languages and tools.Eager to apply my skills and grow as an UI/UX Designer and a front-end developer, I am always on the lookout for opportunities to learn and contribute to innovative projects.

- Index Number : 61605433
- Ibbagamuwa Central College - Kurunegala

Designs

Meliza AI

An AI powered Chatbot which we Designed and developed for **Benchmark 3.0 UI/UX Competition** where we selected to the final round.

CaroCost - Fuel Tracker

I have designed a modern looking,user-friendly Mobile App UI for Track the fuel consumption of the vehicles. Client requirements was to create a dynamic user-freindly interfaces with related functionalities.

EVote Lanka Mobile App Design - Designathon Competition

I have designed a modern looking,user-friendly Mobile App UI for upcoming election.It will enhance the user experiences by helping users to submit their vote very easily.

Coffee Shop Mobile App Design

I have designed a modern looking,user-friendly Mobile App UI for Coffee shop where every user can will be willing to use the App because of the Design.

Burger King Web Site Re-Design

Original Website only had a Landing Page. I decided to add some features where some good brand needed and Eye-catiching User Interfaces.Employed modern UI/UX principles to create an intuitive, responsive layout that improved navigation, accessibility, and mobile usability. Worked closely with cross-functional teams to ensure the design meets both user and business goals, resulting in a sleek, user-friendly interface."

Modern Music App UI

I have created a modern looking Music player App full UI design where I learned about how UI design affect in Mobile-Devices and also how to design mobile-apps.

Projects

Fingerprint based attendance system- 1st Year Group Project

- Participation
    1. Designed the User Interfaces
    2. Developed the Frond-End of the System
- Key Technologies
    1. HTML5,CSS,JavaScript,PHP,MySQL,Arduino

- Key Achievements
    1. Implemented a user-friendly web interface for registration and attendance tracking
    2. Integrated fingerprint sensor with Arduino to capture and verify fingerprints
    3. Developed Back-End services with using PHP and MySQL for storing and managing attendance data.

Mobile Shop Web Page

- Key Technologies
    1. HTML5,CSS,JavaScript,PHP,MySQL

- Key Achievements
    1. Developed a Dynamic User friendly pages to refer the Webpage
    2. Developed the front-end Home Page using HTML,CSS and JavaScript
    3. Developed the Back-End using JavaScript,PHP and also used MySQL for the Database System.

Skills

Tools
- Figma
- Canva
- Jira
- Motiff
- Github

Programming Skills
- HTML
- CSS
- JavaScript
- SQL
- Java
- Python
- React Js
- PHP

Professional Skills
- Good Communication Skills
- Leadership Skills
- Good at Team Work
- Quick Learning
- Understanding about User-centered Designs
- Understanding about Agile Methodologies

Certificates

- Finalist at Benchmark 3.0 - Organized by Aiesec in SLIIT
- 1st Runner Up - Designathon Category(2024) at Saegis CodePulse
- UI/UX for Beginners from Great Learnning - Certificate
- AI Essentials : Introduction to Artificial Intelligence - Certificate
- Web Design for Beginners - Certificate
- API Fundamentals Student Expert - Certificate
- SQL Basics from HackerRank Certificate
